

OS Series Steel/Oil/Water Separators

FEATURES:

- Carbon/Stainless Steel
- Oil Skimmer
- V-Hopper Solids Chamber
- Influent Diffuser
- Adjustable Water Weir
- Flopak Media

USES: OIL/FUELS SEPARATION - Military Waste • Vehicle Wash • Oil Change Shop
Tank Farms • Oil Spill Recovery • Industrial Coolants • Mobile Trailering • 0-5000 GPM

OS Series Fiberglass Oil/Water Separators

FEATURES:

- Fiberglass Construction
- Solids V-Hopper
- Expandable Effluent Chamber
- Flopak Coalescing Media
- Oil Reservoir
- Vapor Sealed Cover/ Quick Remove Hardware

USES: OIL/FUELS SEPARATION -

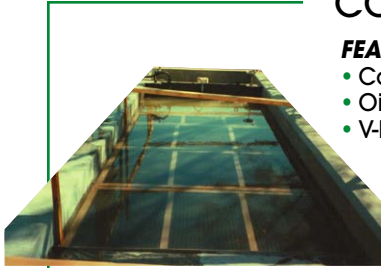

- Groundwater
- Oil Change Shop
- Mobile Trailer Systems
- Oil Spill Recovery
- 0-50 GPM Designs
- Vehicle Wash
- Industrial Coolants

COS Series Concrete Oil/Water Separators

FEATURES:

- Concrete Construction
- Oil Skimmer
- V-Hopper Solids Chamber
- Influent Diffuser
- Adjustable Water Weir
- Flopak Coalescing Media
- Sludge Auger
- Flat Bottom Designs
- Hand Railings
- Custom Designs

USES: OIL/FUELS/SOLIDS SEPARATION - Military Facilities • Vehicle Wash
Petro-Chem Plants • Manufacturing • Industrial Coolants • ANY Flow Rate

FB Series Fiberglass Oil/Water Separators

FEATURES:

- Fiberglass Construction
- Flat Bottom
- Expand Effluent Chamber
- Flopak Coalescing Media
- Oil Reservoir

USES: OIL/FUELS SEPARATION -

- Groundwater
- Machine Shops
- Industrial Coolants
- Vehicle Wash
- Stormwater Runoff
- 0-3 GPM

IWT Series Fiberglass Oil/Water Separators

FEATURES:

- Fiberglass Construction
- Cylindrical Design
- Manway Access
- Flopak Coalescing Media
- Cast Iron Covers
- Manway Extensions
- Hold Down Straps
- Interceptor Version Offered

USES: OIL/FUELS SEPARATION - Groundwater • Vehicle Wash
Machine Shops • Stormwater Runoff • Industrial Coolants • 0-1400 GPM

OSD Series DNAPL Oil/Water Separators

FEATURES:

- Steel/Stainless Construction
- Flopak Coalescing Media
- Vapor Sealed Cover
- DNAPL Collection Hopper
- LNAPL Skimmer
- Retpak Polishing Media
- Adjustable Water Weir

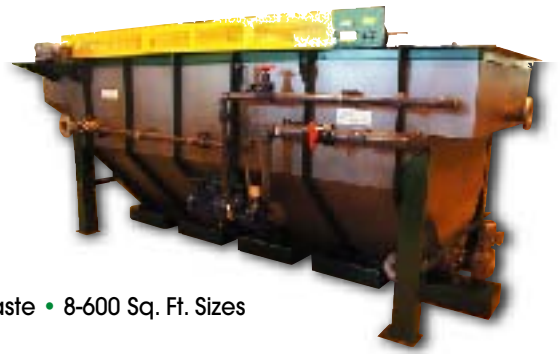

USES: DNAPL OIL/FUELS SEPARATION -
Military Waste • Vehicle Wash • Oil Change Shop • Tank Farms
Oil Spill Recovery • Industrial Coolants • Mobile Trailering • 0-200 GPM

DAF Series Dissolved Air Flotation

FEATURES:

- Separation Chamber
- Recycle/Saturation System
- Nema 4 Control Panel
- Adjustable Water Weir
- Surface Drag Skimmer
- Drag Skimmer Guards
- Float Collection Chamber
- Solids Collection V-Hopper
- Steel/Stainless Construction
- Effluent Chamber

USES: FLOTATION OF SOLIDS/OILS/FUELS -

Aircraft Wash • Textile Ind. • Food Process • Pharmaceutical Ind. • Refinery Waste • 8-600 Sq. Ft. Sizes

MMF Series Multi-Media Filter

FEATURES:

- Fiberglass or Steel Vessels
- Sch. 80 PVC Piping
- Air Operated Valving
- Automatic Backwash
- Quartz Sand
- Flowmeter
- Valve Wall
- Quick Release Tank Connection
- Vacuum Protection

USES: SUSPENDED SOLIDS FILTRATION -

Groundwater • Well Supply
Domestic Water • Clarifier Polishing • Textile Plants
• Electronic Manufacturing • Surface Water Filtration • 5-600 GPM

SPC Series Slant Plate Clarifier

FEATURES:

- Polypropylene Settling Plate Pack
- Influent Chamber/Diffuser
- Steel/Stainless Construction
- Adjustable Water Weir
- Integral Solids Hopper
- Sludge Auger

USES: SOLIDS/METAL SETTLING -

- Power Plant
- Metal Waste
- Hydroxide Settling
- Surface Water
- Product Recovery
- 12-3300 Sq. Ft. Sizes

EC Series Emulsion Cracking System

FEATURES:

- Steel or Stainless Construction
- Chemical Reaction Chambers
- Chemical Metering System
- Reaction Mixers
- OS Series Oil/Water Separator
- Nema 4 Controls

USES: OIL-IN-WATER EMULSION BREAKING -

Product Recovery • Vehicle Wash
Steel Mills • Groundwater Remediation • Industrial Processes • 2-200 GPM

VEW Series Vehicle Wash Treatment

FEATURES:

- OS Series Oil/Water Separator
- Nema 4 Controls
- Effluent Pumpout
- Steel Skid
- Solids Filtration
- Sch. 80 PVC Piping
- AQAM Filtration
- Custom Designs

USES: VEHICLE/EQUIPMENT WASH WATER TREATMENT -

Aircraft Wash • Mobile Wash • Indust. Equipment Wash
Construction Equip. Wash • Forklift Washdown • 2-200 GPM

CRT pH Series Adjustment System

FEATURES:

- Reaction Tank
- Mixer
- Forkliftable Skid
- pH Probe & Controller
- Chemical Metering
- Nema 4 Controls

USES: MONITOR & ADJUST WATER pH LEVELS -

- Steel Mills
- Process Treatment
- Textile Plant
- Industrial Treatment
- Trench Water
- 2-800 GPM

BF Series Solids Filter System

FEATURES:

- Steel/Stainless Steel/Plastic Filter Vessels
- Sch. 80 PVC Piping/Valves
- Forkliftable, Steel System Skid
- Pressure Gauges
- Feed Pump
- Nema 4 Controls

USES: SUSPENDED SOLIDS FILTRATION -

- Groundwater
- Well Supply
- Clarifier Polishing
- Electronic Manufacturing
- Domestic Water
- Textile Plants
- Surface Water Filtration
- 2-800 gpm
